1972-1975

QUALIFICATIONS

Mr. Tummarello is experienced in all phases of power generation and electric transmission systems. He has significant experience in transmission planning, power plant engineering, operations, fuel procurement, power marketing and environmental compliance. In addition, Mr. Tummarello has provided litigation support, serving as an expert witness in energy-related legal proceedings. Mr. Tummarello has worked with Independent System Operators (ISOs) and electric utilities providing high-level consulting services in the areas of power plant environmental issues and market development and regional transmission expansion planning issues, among others.

REPRESENTATIVE EXPERIENCE

Project Management. As a consultant for ISO New England, Mr. Tummarello managed an effort to engage vendors and consultants to implement the utility's Standard Market Design. He developed work scope from draft market rules, administered the RFP process and negotiated final contracts for a \$100M project. In addition, Mr. Tummarello served as project manager for the ISO New England multi-year Regional Transmission Expansion Plan and chairman of the Transmission Expansion Advisory Committee. He administered the RFP process for ISO New England for the procurement of materials and services for the construction of two major 345 kV transmission upgrades costing \$500M.

Power Generation and Energy Transmission Planning: As DVP for Orange and Rockland Utilities, Inc., Mr. Tummarello was responsible for the electric generation business unit, including all plant operations and maintenance activities, and the associated engineering, construction, fuel purchasing, power marketing and environmental compliance activities. As a consultant, he has performed detailed feasibility studies for on-site generation applications for municipal, commercial and industrial energy consumers.

Mergers and Acquisition. In his role as DVP of Orange and Rockland Utilities, Inc, Mr. Tummarello oversaw the company's generation divestiture effort by preparing the offering memorandum, conducting management presentations and responding to bidders' inquiries. He headed Orange and Rockland's transition team responsible for all operational, human resource and financial issues.
